

A man with a beard and glasses, wearing a dark red shirt, and a woman with dark hair, wearing a light blue and white striped shirt, are looking at a laptop screen. The man is pointing at the screen with his right hand. The background is a blurred office environment with blue and purple lighting.

MSX LEARN: Your AI Powered Learning and Enablement Platform

Empower your people. Transform your performance.

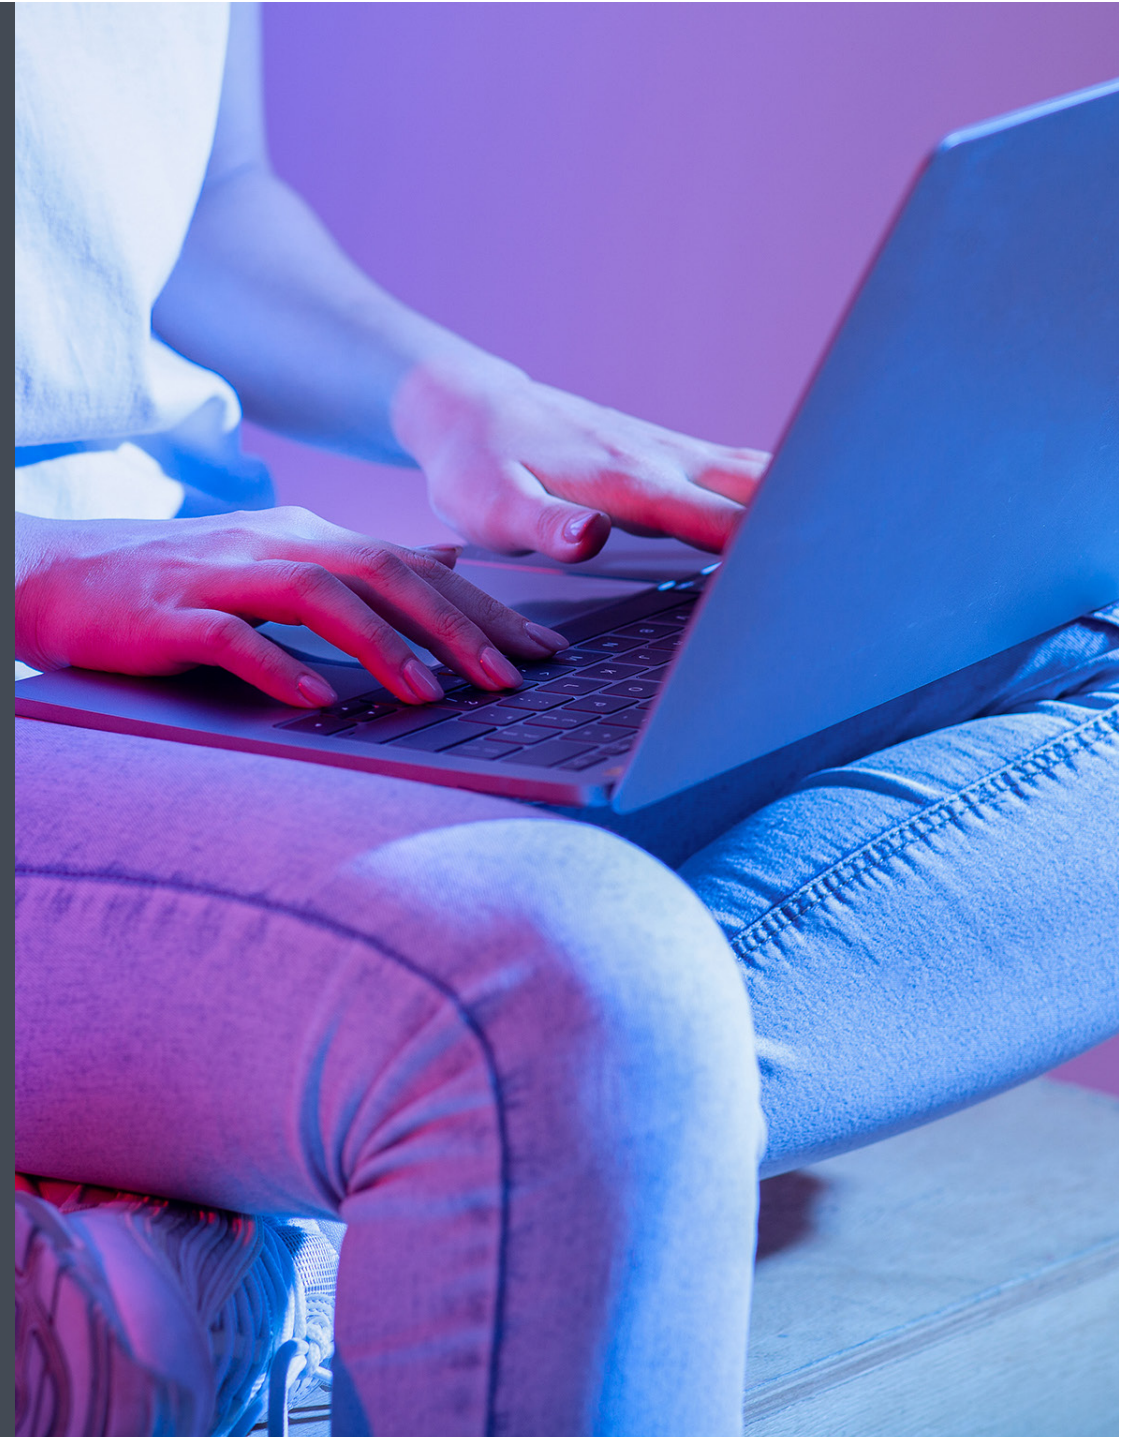

Traditional learning platforms are often slow, costly, and disconnected. Multiple systems require expensive separate licenses for different departments and force organizations to conform to inflexible systems.

MSX LEARN changes everything.

Our next-generation AI powered platform empowers teams to develop and deliver faster, smarter, and more effective learning experiences. Say goodbye to rigid systems, bloated costs, and disconnected learning. Say hello to personalized, scalable, multilingual training that adapts to your workforce.

- Simplify onboarding for faster integration of new team members
- Accelerate content creation with smarter, AI-powered tools
- Enhance learner engagement through personalised experiences
- Reduce training costs across the organisation
- Expand global reach with scalable, multilingual delivery

This is the future of learning, built for performance.

Transform your learning ecosystem

MSX LEARN harnesses cutting-edge technology and AI to eliminate complexity and accelerate the entire learning lifecycle, from rapid content creation to multi-modal delivery, and robust tracking, and certification.

Key capabilities:

- **Generative AI:** Instantly create branded, multilingual content with AI-generated visuals, narration, and course flow.
- **Blended learning:** Blend instructor-led, self-paced, microlearning, and mobile formats for maximum engagement and flexibility.
- **Comprehensive platform:** Benefit from an intuitive user interface, advanced analytics, e-commerce capabilities, seamless administration, and exceptional support, security, and privacy.

Unlock the full power of AI-driven learning

Empower your people. Transform your performance.

MSX LEARN combines three powerful elements into a single intuitive platform: a Learning Management System (LMS), a Learning Experience Platform (LXP), and rapid course development, all driven by cutting-edge AI technology. Together, these capabilities deliver a comprehensive solution that transforms how learning is created, delivered, and experienced.

- **AI-powered content development:** Upload your own content, documents, PDFs, slides, and videos, and let AI transform them into fully structured, competency-based courses in minutes, customized to your organization's requirements.
- **Multi-modal delivery:** Deliver training through a variety of formats, including instructor-led, self-paced, blended, or micro-learning courses.
- **Learner engagement:** Gamification, personalized learning paths, and adaptive content keep learners encouraged and motivated.
- **Robust tracking and analytics:** Track learning progress with detailed and customizable reporting and analytics.
- **Certification and compliance:** Automate certification processes and ensure compliance with industry regulations. MSX LEARN helps you create and maintain up-to-date compliance training programs.
- **Integration and support:** Integrate MSX LEARN with your existing systems for seamless data management. Benefit from 24/7 support and a comprehensive services package to maximize the value of your investment.

Maximize efficiency and drive performance

With its advanced features and capabilities, **MSX LEARN** offers unparalleled benefits that enhance cost-efficiency, speed, and flexibility. Improve your operational productivity and global reach while elevating network performance.

- **Save up to 80%** on content development time and costs with AI and automation.
- **Reduce onboarding time by 50%**, saving thousands of staff hours annually.
- **Track progress with pre-built reports**, measure impact, track progress, identify gaps, and make decisions via a large selection of ready-made reports.
- **Support in over 50 languages** with built in translation capabilities allowing you to connect worldwide.
- **Quickly create and update courses** with AI-assisted technology to keep up with changing business needs.

From technical training to soft skills and compliance, MSX LEARN adapts to every function, without the need for separate systems or licenses.

Why choose MSX LEARN?

MSX LEARN offers a revolutionary approach to learning and development that improves learning outcomes while reducing L&D spend. Our AI-powered platform is designed to simplify and enhance training processes across teams, making it the ultimate solution for organizations looking to improve training efficiency and effectiveness.

At MSX, we combine deep industry knowledge, cutting-edge technologies, and global presence. By consolidating delivery and development tools into a single system, our solution enables you to streamline course creation, develop personalised courses content in minutes, reduce costs, and accelerate learning.

MSX LEARN offers unparalleled benefits, including significant time and cost savings, enhanced productivity, and comprehensive reporting and analytics. Our innovative platform can drive continuous improvement and elevate your organization's training programs, offering a seamless experience.
